

CFMS 2018-19 President-elect Nominee

Name: Stephanie Smith
School: University of Calgary
Year of Study: 3/3

Bio/Letter of Intent (250 words max):

I am extremely fortunate to have served on the CFMS board over the past 6 months, as both the VP of Student Affairs and Executive VP. During this time, I have assessed if I would be a reasonable fit as the president. While I realize I still have a significant amount of material to absorb to be prepared to represent this amazing organization adequately, I assure you, I am passionately committed to professionally representing every single medical student across the country, based on our collaborative goals. I am motivated to support the education, advocacy, global health, financial and wellness resources available to students and intend to continue creating a safe, non-judgmental and transparent environment where students are encouraged to communicate their concerns, passions and ideas. I am inspired by medical students that have come forward to talk about mistreatment, stigma and barriers to their health. I believe we are entering an era that will thrive on a culture change. One where we all feel supported and safe in our classrooms and clinical environments, from the start of medical school until we are practicing physicians. I envision our generation of physicians, as those that challenge the long-standing norms and commit to both advancing our profession and moving us in a positive direction. I encourage you to not accept the status quo, yet advocate for a positive learning environment for our future generation. Let's ensure that what we are doing today, is getting us closer to where we want to be tomorrow.

CAPTAIN STEPHANIE SMITH, BN, RN, MA
